SUMMARY

Experienced and skilled customer service professional and web developer. Hard worker with an eye for detail. Known as a quick learner and problem solver. Background in the service and agricultural industries has left me with the ability to produce high quality work either personally or with a team in a high paced team environment, as well as with excellent customer service skills. Strong ability to work effectively and communicate with a team, quick troubleshooting, patience, and ability to swiftly adapt and provide creative solutions are all strong skills in my toolkit. Earned a certificate in fullstack web development from the University of Wisconsin in November of 2022. Results driven, able to quickly grasp new concepts. Excellent verbal and written communication skills. Currently pursuing advanced education in web development.

SKILLS

Customer Service | Microsoft Office | Organization | Typing 50+ wpm | Communication
Sales | HTML | CSS | Javascript | NodeJS | Vue | Git | SQL | Slack | Zoom
Troubleshooting | Web Design | Team Cooperation | Multi-Tasking

PROJECTS

Simple Password Generator

GitHub: github.com/samvrny/simple-password-generator

Application: samvrny.github.io/simple-password-generator

Description: A simple point and click password generator. Built with Javascript, HTML, and CSS. I am the sole author of this application.

Style Buddy

GitHub: github.com/samvrny/style-buddy

Application: protected-chamber-44327.herokuapp.com

Description: Website built for picking and saving different styles like colors and fonts to use in a project. Built with Javascript, CSS, HTML, Bootstrap, Apollo/GraphQL, Express, MongoDB, Mongoose, Bcrypt, Concurrently, and React. My role was as the project lead, front end Javascript developer, and back-end consultant for this project.

Infinity Scroll

GitHub: github.com/samvrny/infinityscroll

Application: samvrny.github.io/infinityscroll

Description: This application allows a user to scroll through infinite images generated using the Unsplash photo API. Built with Javascript, HTML, and CSS. I am the sole author of the application

EXPERIENCE

Delivery Driver

2020 - Present

Doordash INC.

Boulder CO and Woodbury, MN

Worked with vendors and consumers to ensure the correct orders were delivered in a timely manner. Constant critical thinking needed to plan routes, ensure correct orders, and locate customers and deliver their orders.

Key Accomplishments:

- Managed time as a freelance contractor to deliver orders on time 97.34% of the time, delivering over 2161 orders
- Maintained a 5 star (out of 5) customer rating through my work experience

Laborer

2020-2021

Small Family Farm CSA

LaFarge, WI

Phone: (608)-625-4178

Supervisor: Adam Varney

Worked with teams and crews in a high-paced, high-energy environment to take vegetables from the beginning of their life cycle in the spring all the way to their delivery to the consumer.

Key Accomplishments:

- Completed challenging tasks operating heavy machinery
- Worked with large teams to coordinate and accomplish tasks in a timely and efficient manner
- Trained new employees

Server

2018-2020

The Old Fashioned

Madison, WI

Phone: (608)-310-4545

Supervisor: Brandon Mueller

Served customers from all walks of life in a high-traffic and high-paced supper club

Key Accomplishments:

- Satisfied up to 100 guests per day
- Coordinated delivery of food and beverage, referring to complicated tickets to ensure the correct order made it to each guest
- Trained new servers and food-runners
- Accomplished mandatory lists of cleaning services after each shift

EDUCATION

University of Wisconsin

Certificate in Full Stack Web Development

November 2 2022

ZTM Digital Academy

Certificate in Vue Development

July 7, 2023

Currently pursuing advanced web development certifications in React, HTML, CSS, NodeJS, C#, SQL, and Microsoft Office.
